

# Data Acquisition system

## Salient features of software:

- Real time recording of physical parameters value
- Recording interval : User programmable
- Digital and graphical display of data
- Records data in excel format
- Volume Calculation of flow parameters
- Any other customization as required by customer can be incorporated

## Hardware Specifications:

No.of Inputs: 4/8/16/32/48

Easy wall mounting or table top plastic body

Supply Voltage : 220 V AC

Range : As specified in order

Input: 4-20mA

Accuracy: 1%

## Manufactured by:

GP Systems

SF16 , 14<sup>th</sup> avenue high street market

Gaur City2
